SlaterI actually enjoyed browsing this book, but was ver surprised that the book features exactly one Seiko watch and 0 Citizen watches, while featuring numerous offerings from brands like Eberhard, Gerald. Roger Dubois, etc.... Ignoring the vast offerings the Japanese brands have given the world of heurology over the past century. Seiko has some terrific classic pieces such as their MarineMaster line and Tuna models and it seems odd that they would completely ignore these models and instead feature 12 Bvlgari's, and 10 from Alain Silberstein, and dozens from each of the established Swiss brands. Should be renamed 1001 Western Watches.0 of 0 people found the following review helpful. Great book and makes a great coffee table book!By G. C.Beautiful pictures. Very happy with this book.
