It certainly inspires to see the level of passion, craftsmanship and pride that goes in to many of these "toys". I know some people would like see everyone shopping Walmart (I won't say Costco, they have great stuff!) and driving a Prius but this is a testament to free market capitalism at its best. Without these toys, legions of fine artists, designers, craftsmen and engineers would be out of work and the world would be a little less beautiful. Generous coffee table conversation book! Would make a nice host gift as well. 0 of 0 people found the following review helpful. luxury goods By luis Bendana Jr I like exclusive toys for men and first class service... The Luxury Toys series has set high expectations during its decade of publication. Now we present its most extravagant incarnation yet. Every man yearns for the finer things in life, but only a select few can indulge in them as they wish. Some may even get to sample an occasional extravagance that is among the world's most refined. Browsing through the 304 pages of this incredible over size volume is like a trip to Aladdin's cave. Featuring exceptional products and services--the likes of which you may never encounter again-- this volume is a true representation of every possible fantasy you may have imagined. Captivating images in luxuriant color portray the finer details of these lavish toys. Whether your ideal of luxury is a customized Gulfstream jet, a private island far from the world's cares, or a Rolls-Royce to zip around town in, it's all here waiting for you.
