Malden Historical Society : Malden (Postcard History Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Malden (Postcard History Series):

1 of 1 people found the following review helpful. While this book contains interesting photos of the old churches ...By Steven Rodman While this book contains interesting photos of the old churches in the area, I am surprised that there are no photos of any synagogues. There was a very large Jewish community in Malden in the late 1800's and into the 1900's. In fact, an orthodox synagogue still exists today just outside Malden Square. 0 of 0 people found the following review helpful. Great for genealogy! By Vailbunny I spent part of my childhood in Malden- was great to see the

history! 2 of 2 people found the following review helpful. Interesting photos of old Malden
By Noreen A. Grice
I was born and raised in Malden, Massachusetts and enjoyed looking over the photos from days gone by. I imagined some of the scenes as the way my grandparents saw Malden. Anyone interested in the area will enjoy this book!

By the turn of the 20th century, Malden had become a fairly large city and was home to wealthy families, immigrants, and workers. Farms disappeared as factories and businesses of all types and sizes grew. Elisha Converse, the city's first mayor and founder of the Boston Rubber Shoe Company, left his mark on Malden by funding a public library and hospital and designating land for development of Pine Banks Park. A vibrant downtown emerged at the intersection of two colonial roads. It became a regional center of shopping and commerce as well as a hub for transportation by train, trolley, or automobile. The early 1900s were marked by the construction of grand residences, business buildings, numerous parks and churches, and many schools. However, by mid-century, many of these institutions had undergone great change, if they had not entirely disappeared.

About the Author
The Malden Historical Society has selected postcards from its collection and from the private collections of its members.
