Joanne Raetz Stuttgen, Curtis Tomak : Martinsville (IN) (Postcard History Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Martinsville (IN) (Postcard History Series):

0 of 0 people found the following review helpful. Love this bookBy Letha BoggsI lived in Martinsville IN in the late 40s through the mid-sixties. I am truly enjoying this book showing me the history of the town. I recognize so many names from Michael and Dolly Cohn through Eric Kersey! I also recognize many of the sites in the postcards; I can hardly wait to find the buildings from the postcards that are still standing on my next trip to Martinsville! Love this book!

Based on vintage postcards, this new book is a unique and welcome addition to the small number of works devoted to the history of Martinsville. Captured here in more than 220 postcard images is an important chronicle of the past 100 years in the "City of Mineral Water." This visual record showcases the sanitariums--including the glorious Home Lawn and its sibling, the Martinsville--industries and businesses, buildings and people, courthouse square, and special events that shaped the past and influenced the present. This fascinating retrospective is an indispensable companion to and expansion of Morgan County, the authors' first book in Arcadia's Postcard History Series.

About the Author Joanne Raetz Stuttgen is a folklorist and cultural resources specialist active in local history research and historic preservation. Curtis Tomak, an archaeologist with the State of Indiana, is an avid collector of vintage postcards and local memorabilia.
