Mark K. Larson : Minor League Baseball Card Price Guide (Sports Collectors Digest) before purchasing it in order to gage whether or not it would be worth my time, and all praised Minor League Baseball Card Price Guide (Sports Collectors Digest):

2 of 2 people found the following review helpful. Minor League Baseball Card Price GuideBy ClementineI was a bit disappointed in this publication. I did expect to see more minor league baseball card sets shown than appeared in this publication. e.g Classic, Tetrad, etc. Also, the lack of prices on the sets that did appear were not very detailed. I would like to find a publication that does list many of the minor league and offbeat mfg sets that I do have. e.g Ted Williams, Classic, Tetrad etc.I have not been able to find any publications that list these specific sets nor any current price guides. I do have numerous other type sets with individual cards that are autographed that I am unable to locate. Should you have any information re: these specific sets and publications which will list them I would be very interested. They used to be listed in the Monthly Publication but due to the sheer volume of cards not being mfg., they no longer are shownThank You
