The only comprehensive photographic book on Waffen-SS uniforms is finally available! This three volume set is unquestionably the best reference on German SS military uniforms ever produced. After many years of research and preparation, Mike Beaver, author of *Camouflage Uniforms of the Waffen-SS*, has again produced another breakthrough publication. This spectacular work is a heavily documented record of all major clothing articles of the Waffen-SS. Hundreds of unpublished photographs were used in production. Original and extremely rare SS uniforms of various types are carefully photographed and presented here. Among the subjects covered in this multi-volume series are field-service uniforms, sports, drill, dress, armored personnel, tropical, and much more. A large updated chapter on SS camouflage clothing is also provided. Special chapters on the SD and concentration camp personnel assist the reader in differentiating these elements from combat units of the Waffen-SS. Difficult areas such as mountain and ski troops, plus ultra-rare pre-war uniforms are covered. Included are many striking and exquisite uniforms worn by such men as Himmler, Dietrich, Ribbentrop (father and son), Wolff, Demelhuber, and many others. From the enlisted man to the top of the SS empire, this book covers it all. This book is indispensable and an absolute must-have for any serious historian of World War II German uniforms. Volume 1 covers: Black Service Uniform, LAH Guard Uniform, SS Earth-Grey Service Uniform, Model 1936 Field Service Uniform, 1939-1940, 1941.
