**Kathy Flood : Warman's Jewelry Field Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Warman's Jewelry Field Guide:

0 of 0 people found the following review helpful. Like the First Edition --- Mostly PicturesBy BebzyThis little book (second edition) contains very good photographs, better than the first edition of this title, but very little text. It gives a specific price for each of the pictured pieces, but I did not find any reference as to how these prices were determined. To a novice collector, these prices could be misleading. Collecting costume jewelry for three-plus decades has taught me that a piece is worth what an available buyer is willing and able to pay for it when you need to sell it.1 of 1 people found the following review helpful. Very disappointed.By Albert TrioloI was looking forward to having a book for the car, but this is not it. If you are a high end vintage jeweler than yes this is another one for you. I guess I will keep on looking. Very disappointed .14 of 15 people found the following review helpful. READ this review to really find outBy stuartvisionThe New Warman's JEWELRY field guide is the Wikipedia of Bijoux Wearable art. It's a must have volume for any novice or collector who covets this glistening media.It's way more than a "field guide" considering the wonderfully written introductory essays that separate the definitive styles,materials,and trends. Kathy Flood has the

ability to suck us into this shiny addictive world, at the same time educating us in the background. This precious collection of words, images, detailed descriptions is actually a gem in itself. While measuring 4.25 x 5.25 inches, over 510 pages, one inch thick, is as intimate a book can be without receiving an X rating. At this totally affordable price, it's definitely going to be my ultimate Xmas Stocking Stuffer to everyone that i give good gift to.

The take-it-with-you collecting resource...Warman's Jewelry Field Guide 2nd Edition features more than 400 detailed color images and current values for some of the world's most stunning fine and costume jewelry.You'll also find:Key categories covering everything from funky fads to diamonds and pearls.A wide-ranging list of shopping resources.Essential factors to consider when determining values.

About the AuthorKathy Flood is an experienced magazine writer and editor who worked for The Collecting Channel, for the Chicago Tribune as an antiques and collectibles columnist, and as editor of other collectibles publications. She is the author of Warman's Jewelry Identification and Price Guide, 4th edition.
